JOHN TYLER, M. D.

THIS is to acquaint all merchants
and others, who are occupiers of corn mills, that
JAMES APPLETON, sen. has opened a yard in Liver-
pool, where he has a large choice picked parcel of French
burr stones, which he will sell as cheap as can be had in
any part of England, either ready made up, of any size,
or in the burr; and he flatters himself those of the trade,
to whom he is known, will allow he is very capable of
judging, what kind of burr is most suitable to preserve the
condition and colour of flour, and, at the same time, of
grinding very expeditiously, he having been above 30 years
in this branch of business, and near 40 in the millering, and
great part of the time in the south of England. He is the
only importer of this article into Liverpool from France,
where he generally goes himself, or sends an experienced
man, to pick them from the quarry: Also, he has just
imported a quantity of Cologne Stones, such as are gene-
rally used in North America for grinding wheat, of the
best and most even quality, which he will likewise sell rea-
sonably.

N. B. The Gentlemen who have occasion to give or-
ders to their correspondents for stones, are desired to con-
sult their millwrights, particularly whether for water or
wind mills, and when they are to run, either with the
fun, or against it, and any other articles that may be
wanted in the mill way, to prevent useless expences, and
disappointments.
