

To the honored Council now sitting at Boston the humble petition
of William Akaden her humble servant

There being a woman taken by the mohegins and now brought
to Boston which woman although she did belong to Phillip his
Company yet she is akin to me and all so to John Huntar
as several of the Indians of ~~Wunstrawage~~ ^{Wunstrawage} do know my
humble and earnest request there fore to the honored Council
is that if it may stand with there pleasure and with out
further inconvenience her life may be spared and her liberty
granted upon such conditions as the honored Council
see meet. She being a woman what ever her mind hath bent
it is very probable she hath not done much mischief and
if the honored Council shall please to grant me that favor
I shall undertake to keep her at ~~Wunstrawage~~ ^{Wunstrawage} from having
recourse abroad to other places if understand one reason of the
mohegins sparing her and sending her down was because
she loved them she was allied to my father if hope although
not deserv'd I shall obtaine so much favor from the
honored Council which will further oblige him who is your
honors to Command
